

**AL-NAJOF
FIBERGLASS**

**Engineering Excellence in
Advanced Composite Solutions**

**Delivering Durable, Cost-Effective &
Sustainable GRP/FRP Products Worldwide**

AL-NAJOF
FIBERGLASS

Company Overview

At **Al-Najof Fiberglass**, we pride ourselves on being one of the leading manufacturer of **Glass Reinforced Plastic (GRP)** and **Fiber Reinforced Plastic (FRP)** solutions across the region. With a deep commitment to quality, innovation, and performance, we offer **end-to-end services** including **design, manufacturing, supply, and installation** of fiberglass products that cater to diverse industries such as construction, utilities, oil & gas, and infrastructure development.

Our mission is to provide **high-strength, corrosion-resistant**, and **long-lasting** composite solutions that outperform conventional materials and support a more sustainable future

Product Applications

Industrial Applications

Chemical Plants

- FRP storage tanks
- Scrubbers and ducting systems
- Chemical-resistant linings and grating

Oil & Gas Sector

- Cable trays and ladders
- Piping systems for corrosive media
- FRP handrails and platforms in offshore/onshore rigs

Power Plants

- Cooling tower components
- Cable trays and supports
- Walkways and structural supports

Construction & Infrastructure

Buildings & Structures

- Rebars for reinforced concrete (corrosion-resistant)
- FRP doors, windows, and wall panels
- Decorative cladding panels

Bridges & Highways

- FRP rebar and panels for bridge decks
- Noise barriers
- Utility enclosures and covers

Sewage & Drainage Systems

- Manhole covers
- FRP tanks and pipes for wastewater
- Cable trenches and trench covers

Water & Wastewater Treatment

- FRP tanks for water storage and treatment
- Clarifiers and baffles
- Walkways, ladders, and platforms in treatment plants

Marine & Offshore

- Boat hulls and decking
- Jetty walkways and ladders
- Corrosion-resistant handrails, grating, and structural members

Transportation

- Boat hulls and decking
- Jetty walkways and ladders
- Corrosion-resistant handrails, grating, and structural members

Manufacturing Facilities

- Acid/alkali-resistant flooring and walls
- Dust collection hoods and ducts
- Equipment covers and enclosures

Agriculture & Food Processing

- FRP silos and tanks for fertilizers or grains
- Hygienic wall claddings and panels
- Non-corrosive walkways and platforms

Renewable Energy

- FRP support structures for solar panels
- Covers and frames for wind turbines
- Insulating materials for electrical components

Our Product Portfolio

1 GRP Water Tanks

- Hot press and sectional panel types
- Wide range of capacities and custom dimensions
- Easy installation with modular flexibility
- Certified to WRAS, ISO, and other international standards
- Ideal for residential, commercial, and industrial use
- Water storage Tank- Hot/Cold press Method Capacity 1000 LTR to 10000 KL

2 GRP Pipes & Fittings

- Filament wound, centrifugal cast, and custom pipe types
- Joint options: Bell & Spigot, Flanged
- Available in various pressure ratings
- Excellent chemical and corrosion resistance
- Comprehensive installation guidelines

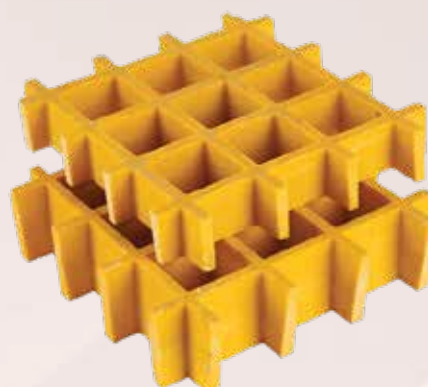

3 GRP Cable Trays

- Ladder, perforated, and solid tray types
- High load-bearing capacities
- UV, fire, and chemical resistant
- Superior electrical insulation
- Complete mounting systems and accessories

4 GRP Gratings

- Molded and pultruded variants
- Anti-slip surfaces for added safety
- High corrosion resistance for harsh environments
- Applications: marine, offshore, chemical plants, food industry

5 GRP Manhole Covers

- Load classes from A15 to F900
- Tamper-proof locking mechanisms
- Custom colors and logo embossing
- Complies with EN124 standards

6 GRP Ladders & Platforms

- Non-conductive, corrosion-resistant design
- Options with handrails and safety cages
- Tailored to your specific dimensions and applications

7 GRP Enclosures & Kiosks

- Electrical and telecom housing
- Weatherproof and UV-stable materials
- Options for ventilation and access panels
- Custom cutouts for electrical systems

8 GRP Custom Moulded Products

- Bespoke solutions: tanks, ducts, benches, planters
- Designed to meet complex architectural or industrial needs

9 FRP Pultrusion Profiles

- Lightweight yet high-strength profiles
- Ideal for structural frames, supports, and reinforcements

10 GRP Linings

- Internal linings for tanks and pipelines
- Extended lifespan and superior corrosion resistance

11 GRP Handrails

- Ergonomic, weather-resistant, and maintenance-free
- Ideal for industrial walkways and platforms

12 FRP Chemical Storage Tanks

- Designed for aggressive and hazardous chemical storage
- Built to international safety standards

13 FRP Sunshades

- UV-protected architectural shading
- Adds aesthetic and functional value

14 FRP Signboards

- Weatherproof, fade-resistant signage
- Customizable in design and size

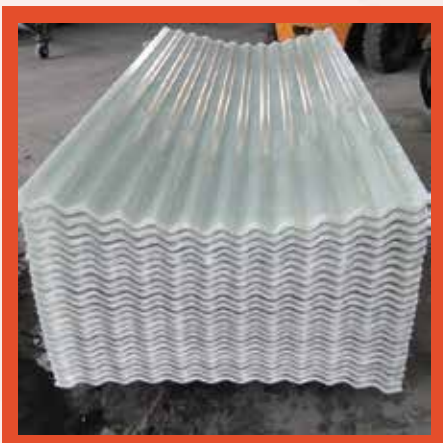

15 GRP Doors

- Corrosion-proof, fire-resistant, and aesthetically designed
- Used in industrial, commercial, and cleanroom settings

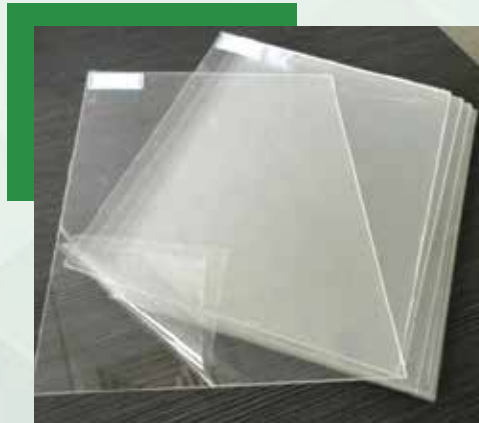

16 FRP Corrugated Sheets

- Suitable for roofing and cladding
- Lightweight and high-impact strength

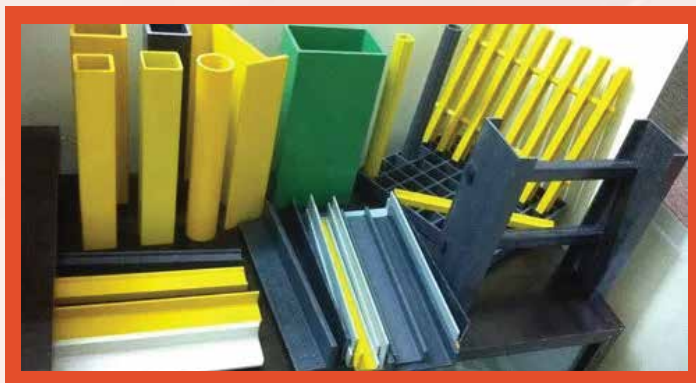

17 FRP Plain Sheets

- Smooth finish sheets for interior and exterior applications

18 FRP Custom Products

- Crafted to match your specific design, function, and space needs

Why Al-Najof Fiberglass?

- **Exceptional Strength-to-Weight Ratio**
- **Corrosion & Chemical Resistance**
- **Thermal & Fire Stability**
- **UV & Weather Protection**
- **Lightweight & Easy Installation**
- **Custom-Built Solutions with High**
- **Dimensional Accuracy**

Industries We Serve

- ▶ **Construction & Infrastructure**
- ▶ **Oil, Gas & Marine**
- ▶ **Water & Wastewater Treatment**
- ▶ **Industrial Manufacturing**
- ▶ **Architectural & Decorative**
- ▶ **Power & Utilities**

Installation & Engineering Services

We don't just manufacture—we deliver turnkey solutions:

- › On-site installation and commissioning
- › GRP lamination and protection works
- › Precision-engineered fittings and reinforcements
- › Maintenance and lifecycle support

Let's Build a Stronger, Safer Future Together

Partner with **Al-Najof Fiberglass** for reliable, sustainable, and innovative GRP/FRP solutions that transform your projects and stand the test of time.
